### E. Coli Advisory for Creek Use

**Participants in this year's annual fishing tournament are advised that recent water quality tests have detected elevated levels of E. coli in the creek. While fishing is still permitted, we recommend taking the following precautions to minimize risk:**

1. Avoid direct contact with the water, especially if you have open cuts or wounds.
2. Wash your hands thoroughly with soap and clean water after handling fish or touching the creek water.
3. Refrain from drinking or swallowing creek water.
4. If you have any underlying health concerns or develop symptoms such as nausea, diarrhea, or fever after the event, consult a healthcare professional immediately.

The organizers are committed to your safety but cannot guarantee water quality or assume responsibility for any health issues that may arise. By participating and signing below, you acknowledge and accept these risks.

By signing below, you are agreeing to the rules and regulations of this event.
